

**Office Policy regarding Health Savings or
Health Reimbursement Accounts**

Insurance companies many times will not verify what funds are available on these types of accounts and may issue benefits to the patient rather than the provider of service. If we are not able to verify your funds on the date of service, we must assume that these are high deductible plans and collect the contract allowable amounts for the services rendered at the time of service.

If you have a **Health Savings Account (HSA)** debit card you will need to use it to pay your portion of expenses at check out.

If you have a **Health Reimbursement Account (HRA)** you must bring a current printout showing what funds are available for that appointment. Otherwise, we will collect the contracted allowable amounts at the time of service.

Thank you for your understanding
